

TOGETHER

Celebrating 10 years of unexpected intersections, connection, and healing

Together, let's celebrate the past 10 years, and drive Twist Out Cancer forward into the next 10. Please become a partner today!

There are more than 17M cancer journeys to share through art in the US alone. Together, let's share more of them. Please become a Twist Partner today.

At TOC we know the power of the arts is an underutilized mechanism for healing. Institutional resources to address social and emotional wellness for anyone touched by cancer can be inequitable, bound by geography, and are often cost prohibitive.

Twist partners are dedicated, passionate supporters who believe that anyone touched by cancer should have the opportunity to experience the transformative power of art to heal. Our hope is that Twist Partners will make a three-year commitment now that will ensure that the organization can grow its programs sustainably and deliberately as we embark on our next decade.

ABOUT US

When most people think about cancer, they don't think about art.

In fact, when Jenna Benn Shersher was diagnosed with Gray Zone Lymphoma in 2012, she struggled openly with loneliness and solitude. Longing for connection, but isolated while undergoing treatment, she created a YouTube video of herself doing "The Twist" and asked the world to join her on a virtual dance floor.

The moment "The Twist" video went viral, Twist Out Cancer was born. Since 2012, Twist Out Cancer has become an international movement, touching more than 200,000 people through its creative arts programming. Through two signature programs, Brushes with Cancer and Twistshops, **Twist Out Cancer has become a global community that gives survivors, previvors and caregivers opportunities to share, connect and heal.**
